

TUBE GRINDER

The Tube Grinder was designed with the smaller shop in mind. Its simplicity makes it easy to use. Variable belt and speed feed rates make this machine capable of many different finishes. From 60 grit to Scotch Brite Belts, the Tube Grinder is designed to meet your specifications, perfect for your tube finishing needs.

Features

- Tube does not have to be 100% round
- Can process straight, oval or curved tubes
- No coolant required
- Quick & easy diameter adjustment
- Compact and mobile
- No suspension tables needed
- Tube itself does not spin
